

## Charlie's dilemma!

Charlie is a very willing and helpful fawn. He doesn't hold back when it comes to clearing the trash from the forest, but he does need some tools. The activities in this story ask kids to help Charlie to get back a rake and overcome some obstacles, by getting them used to adopting problem-solving strategies.

### Subjects

Engineering (Logica)

### Social skills introduced

Collaboration  
Respect for the environment  
Respect for others

### Further information

Problem-solving can be taught from an early age through exercises and activities in which kids analyze situations and find solutions by themselves. Allowing children to solve a problem on their own also instils confidence and improves self-esteem.

Suggested age

3-4 years

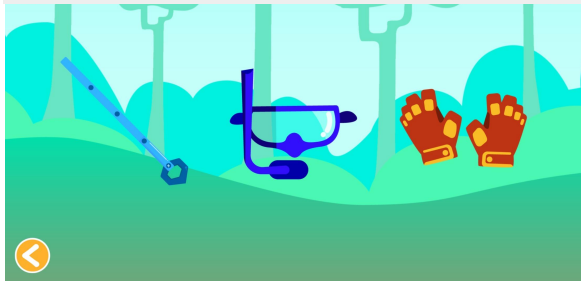

Difficulty of game

Learning objectives

- Problem solving

What should Charlie wear to cross the lake? Touch the correct object!

What should Charlie use to climb the tree? Touch the correct object!
