### **Luna arrives on Mars!**

The tight-knit group travels to Mars and in the latest episode of the series set in space, they arrive at their destination. Finally, the red planet exploration begins. Luna learns a lot of interesting things about stars and planets and uses the opportunity to take some pictures to remember her special adventure.

#### **Subjects**

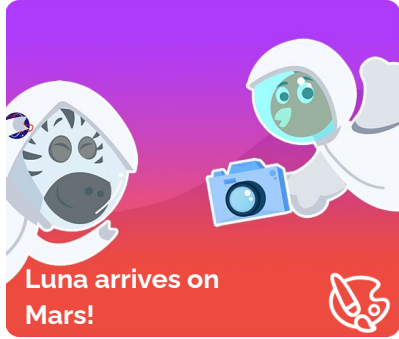

Science  
Art

#### **Social skills introduced**

Friendship  
Collaboration

#### **Further information**

Through games children can already familiarize themselves with astronomical science notions in kindergarten, such as the planets of the solar system. This type of educational activity stimulates kids' natural inclination to curiosity and discovery.

Suggested age

3 years

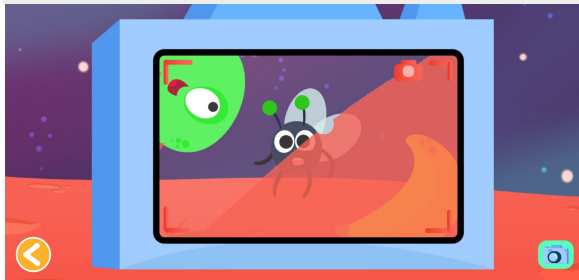

Difficulty of game

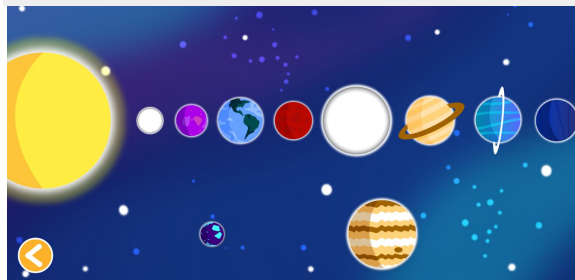

Learning objectives

- Astronomy

The camera lens is covered in dust!  
Drag your finger to clean the dust away,  
then take a photo!

Some planets are close to the sun, others  
are far away...  
Drag the stickers to the correct places

Let's take a photo for later!  
Drag the objects you like to create the  
photo
