

## Oscar, did you eat my friends?!

Lord Thomas introduces Oscar to his friend Ray the elephant, but something unexpected happens: Ray mistakes the dinosaur for a monster and a misunderstanding risks compromising a friendship between the two. The story teaches us to look beyond appearances, while interactive games enhance visual-spatial intelligence.

### Subjects

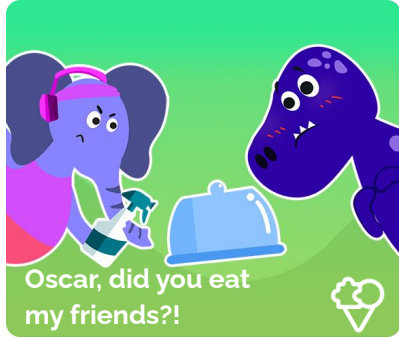

Engineering (Visual-spatial intelligence)

### Social skills introduced

Diversity  
Kindness

### Further information

Visual-spatial intelligence is a cognitive ability to be acquired and trained in pre-school age; identifying the spatial relationships between objects helps kids to interact more confidently in the world around them, relating properly to others and to other objects.

Suggested age

3 years

Difficulty of game

Learning objectives

- Spatial perception

Tap on all the items that are hidden behind something

Help Oscar eat his favorite dish.  
Drag the dinosaur behind/in front of the table

What is really happening behind the scenes? Tap on the item to find out!
