### **Claude and Dave Wonderful swimmers!**

At the Oceanics the time has come for the jumping competition and the athletes Claude and Dave are ready. The crowd is waiting to see who will be the winners, but first you have to sort out all the obstacles: through games kids help to fix the mess while training with math and numerical series.

#### **Subjects**

Mathematics  
Engineering (Logic)

#### **Social skills introduced**

Friendship

#### **Further information**

Some playful and didactic activities to familiarize kids with numbers and mathematical operations can be useful for developing numerical intelligence in themselves. Some operations such as counting, adding and subtracting can already be acquired starting from kindergarten.

Suggested  
age

4-5 years

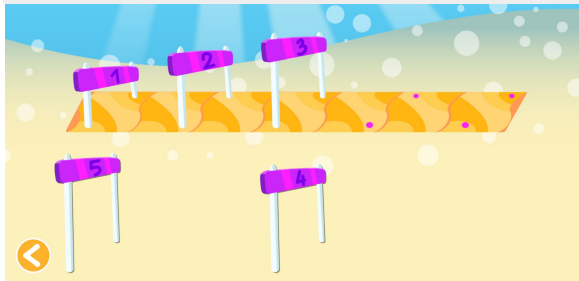

Difficulty  
of game

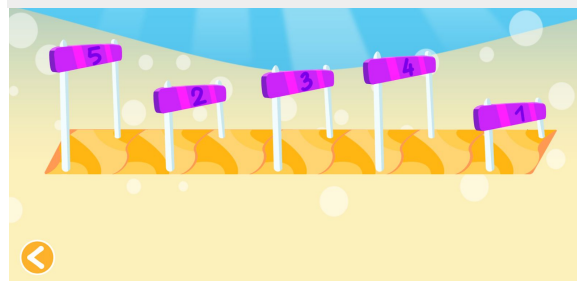

Learning objectives

- Counting
- Logical reasoning

Sort out the hurdles by their number

Touch the misplaced hurdles

Which hurdles fell? Count them all out and you will see!
