

The ocean turned upside-down!

A seaquake brings disarray and disorder to a little village of fish! Each one of them loses something and Luke, the great collector who is jealous about all his precious treasure, learns the importance of sharing.

Subjects

Science
Engineering (Logic)
Art

Social skills introduced

Emotions
Sharing
Respect for others

Further information

In primary school, teachers work hard to teach sharing, which is an extremely important skill for children to learn.

Learning to share helps to avoid conflicts, become empathetic, understand the needs of others and give the right importance to material objects, knowing that they are less important than interpersonal relationships.

Suggested age

4-5 years

Difficulty of game

Learning objectives

- Property of materials
- Logical reasoning

Use your finger to rub and shine Luke's treasures!

Touch all the wooden/glass/metal objects

Touch the object that can solve the problem
