

Precise Sal

Sal also helps clean the forest. He is a very tidy and meticulous racoon and everyone calls him "the fusspot". This story introduces the concept of respect for the environment and teaches kids how to dispose of waste properly. The activities are based on computational thinking (coding).

Subjects

Engineering (Logic)

Social skills introduced

Collaboration
Respect for the environment
Respect for others

Further information

Developing computational thinking means applying logic to everyday life. With coding exercises kids must perform a series of instructions in sequence to achieve a goal, thus learning to deal with complex problems by breaking them down into several parts. The coding exercises for children are introductory to computer programming.

Suggested age

5 years

Difficulty of game

★★★★

- Learning objectives**
- Pattern recognition
 - Sets
 - Logical reasoning
