

The ocean turned upside-down!

A seaquake brings disarray and disorder to a little village of fish! Each one of them loses something and Luke, the great collector who is jealous about all his precious treasure, learns the importance of sharing.

Reading comprehension questions

1. What does Luke keep in his cave?
2. What happens in the ocean when the tsunami arrives?
3. What does Luke lose in the tsunami?
4. What did Luke learn from this experience?

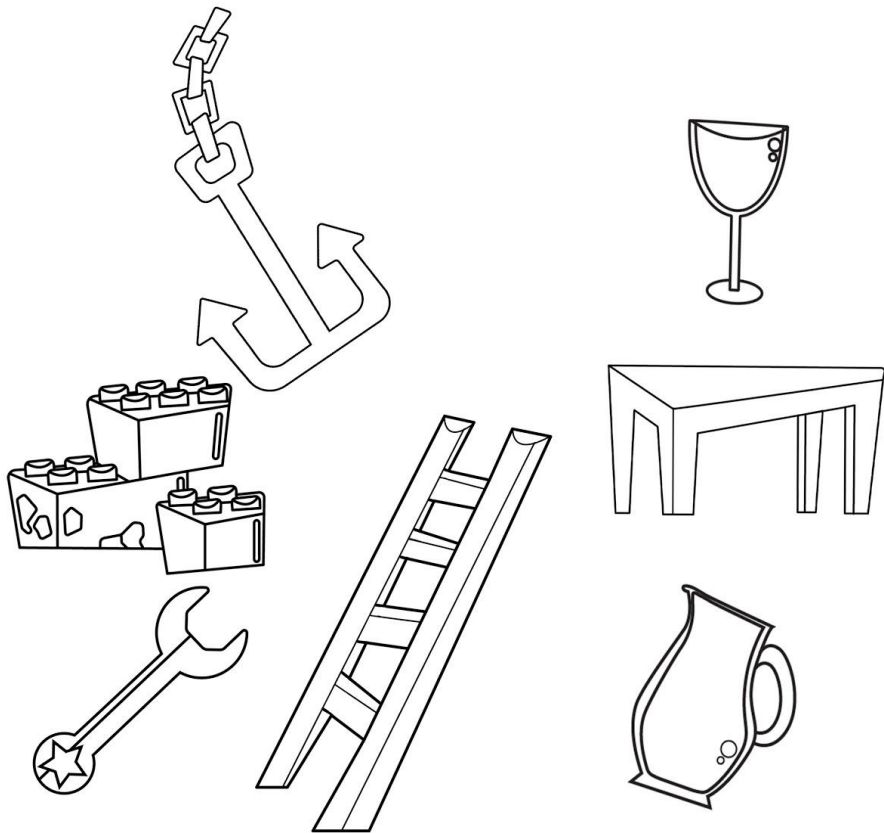

Ideas for activities

- Upcycling: you could use a piece of cardboard to make a puzzle by glueing a drawing onto it and cutting it into pieces; a biscuits tin can become a color holder etc.

WHAT MATERIAL IS IT MADE OF?

Circle glass objects in green, plastic ones in yellow, wooden ones in brown and metal ones in gray.

SOLVE THE PROBLEM

Cut out the object that can solve the problem and paste it onto the image.
